Be aware of your surroundings and be attentive to any suspicious persons.

Watch out for the common scams that affect youths!

E-commerce scam

Rushing for that “limited time” deal? Be wary of making payments before delivery of goods or services. Insist on cash on delivery or transact through the platform’s secure payment options.

Do not turn off security settings (e.g., Google Play Protect) or download unknown applications for online purchases as it may allow malware to be installed on your devices, which would allow scammers to access your personal and banking information.

Job Scam

Tempted by that “high pay, low effort” job? Remember, no real job will ask you to make payments upfront to secure the job, or request to use your bank account to receive or transfer money.

Phishing scam

Don't click on links in unexpected emails. These could steal your personal information and/or harm your device. When in doubt, delete the message and block the sender!

Did you know?

In first half of 2025, more than 1,000 youths were victims of scams, and over 300 youths were arrested for their involvement in scams.

Remember, Your Bank Account, Singpass Account And Esim/Sim Card Are For Your Own Use Only. These Have Been Exploited For Criminal Activities. It May Be A Crime If You Share Them With Others.

People who allow scammers to control or use their Bank, Singpass or eSIM/SIM CARD are liable for significant **imprisonment sentences**. This applies to all offenders, including young offenders under the age of 21.

Drug and Inhalant Abuse Situation

1. The possession, consumption and trafficking of controlled drugs are serious offences.

In 2024, 165 persons below the age of 20 were arrested for drug abuse and 134 of them were new abusers. Drug abuse causes harm to your body and mind.

Do not let drugs harm you and your family and loved ones.

2. Stay away from drug and inhalant abuse.

Do not allow yourself to be pressured into trying drugs or using products like Kpods. Walk away if anyone tries to offer you drugs and do inform your family members or school staff immediately.

3. Always exercise caution on the Internet and social media.

The Internet and social media may carry misinformation about drugs and mislead people into thinking that drugs are not harmful and that they are legal, so as to create demand for the drugs and profit off drug abusers. Do not attempt to buy drugs online as this also constitutes illegal drug activities.

4. Do not get involved in online drug activities.

CNB also monitors and investigates online drug activities and will not hesitate to take action against those who order drugs or drugs paraphernalia online, have drugs delivered by post or courier, and those who are involved in any illegal drug activities.

5. Stay away from drugs even when you are overseas.

Under the Misuse of Drugs Act, you will be liable for the same drug consumption offence regardless of where the controlled drugs were consumed. CNB conducts regular enforcement checks at the airport and at the other land and sea checkpoints.

6. Beware of food and products containing controlled drugs.

In some countries, drugs such as cannabis may be added as ingredients to edibles and sold as food or marketed as "health" products free from controlled drugs. It is an offence to consume, possess or bring in these items without authorisation. If you are travelling to countries where these food and other products containing controlled drugs may be sold, do exercise caution. Do not consume food and beverages from unknown sources. Do not purchase or bring items back to Singapore without checking what they are made of. If in doubt, do not consume or purchase the item.
